DEPARTMENT OF COMMERCIAL INTELLIGENCE
AND STATISTICS, INDIA;
Calcutta, January 29, 1947

A. R. SINHA,
Director of Statistics.

NATIONAL SAVINGS CERTIFICATES

The best method of investing savings. Absolute security, excellent interest and repayment at any time at holder's option, after two years (18 months, in the case of Rs. 5 Certificates). Income-tax-free. In 12 years, every Rs. 10 Certificate becomes Rs. 15 which is equivalent to 3½% compound interest, income-tax-free.

National Savings Certificates are obtainable in denominations of Rs. 5, Rs. 10, Rs. 50, Rs. 100, Rs. 500, Rs. 1,000, and Rs. 5,000. Full particulars can be obtained from Authorised Agents appointed by Government, from any Post Office, doing Savings Bank business or from any National Savings Bureau, or, in case of difficulty, from the

NATIONAL SAVINGS COMMISSIONER,

National Savings Central Bureau,
Finance Department, Government of India
Gorton Castle, Simla

REMARKS

During the week ending the 4th January, 1947 in British India (excluding North-West Frontier Province) and in the Indian States shown in this statement the total number of deaths recorded in 205 towns having a population of 30,000 and over was 9,318. The mid-year estimated population of these towns was 26,173,299 and the death rate was 18·5 per thousand of the population. Births in the same towns numbered 15,722 giving a birth rate of 31·2 per thousand of the population. In British India alone the corresponding birth and death rates were 31·3 and 18·5 per thousand of the population respectively.

(A) *British India*.—In British India, Tiruvannamalai was the only town which had a high death rate of 50·2 per thousand of the population. This high death rate seems to be mainly due to deaths from dysentery and diarrhoea.

In 198 towns in British India, there were 26 deaths from cholera, 29 deaths from smallpox, and 21 deaths from plague.

Of the deaths from cholera Nabadwip recorded 12 ; Calcutta 7 ; Bhagalpur and South Suburban 2 each ; Bihar, Titagarh and Brahmanbaria one each. Of the deaths from smallpox Delhi City recorded 8 ; Ajmer 7 ; Calcutta 5 ; Hyderabad 4 ; Ambala, Jhang-Maghiana, Chiniot, Tollygunj and Madras one each. Of the deaths from plague Cawnpore and Benares recorded 6 each ; Jaunpur 3 ; Poona and Pandharpur 2 each ; Allahabad and Bijapur one each.

(B) *Indian States*.—Amongst the Indian States shown in this statement, there was no town which had a high death rate of 50 or over per thousand of the population.

In 17 towns of the Indian States there were 3 deaths from smallpox of which 2 were recorded in Porbandar and one in Jamnagar City and 5 deaths from plague were recorded in Bangalore City. Cholera was absent during the week.

E. COTTER, COLONEL, I.M.S.,

Public Health Commissioner with the Government of India.
